MONOLINE SCRIPT

**PRACTICE SHEETS**

**PDF & JPEG for  
PRINT & PROCREATE**

Hey  
Friends!

It's so great to have you on this lettering journey! Before you begin practicing with our custom modern lettering script, "Cindy," in monoline, we want to share a few tips.

### *The Basics of Monoline Lettering...*

Monoline, or *one line*, letters have the same weight or thickness when you draw them. To achieve the monoline look, you can use any basic writing tool (i.e. pen, pencil, Sharpie, monoline markers, etc.)

*Happy lettering!*

#### **\*\*PRINTING\*\***

The PDFs are sized to print on standard 8.5" x 11" paper. To prolong the life of your brush pens, I recommend printing on a high(er) quality, smoother paper. Or try tracing sheets as a more environmentally friendly and cost-effective alternative!

#### **\*\*JPEG DOWNLOAD FOR PROCREATE\*\***

To **import** images to Procreate select "Save to File." Go to "On My iPad," choose your Procreate folder, and tap "Add." Do this for each worksheet. In Procreate, select "Import" and locate your worksheets. Choose "Photo" from the Procreate home screen to open your worksheet.
